A Century Of Style

Our celebratory anniversary with Bollywood actress and CJS Brand Ambassador Jacqueline Fernandez highlighted the debut of a collection inspired by Geoffrey Bawa's Lunuganga Country Estate in Sri Lanka. Each piece intricately blended architectural design with nature, resulting in a collection that was minimal yet flawless. Every item in the Century of Style Collection paid homage to Lunuganga's rich history, featuring the revered Sri Lankan Blue Sapphire. Drawing inspiration from the estate's lush water gardens, the collection featured decadent sapphire, emerald, ruby, and pearl earrings, capturing the luster of deep waters, along with sunlit-inspired rings adorned with precious gemstones. This collection stands as a testament to CJS's unwavering commitment to excellence and artistry in fine jewellery, encapsulating the architectural brilliance of Lunuganga.

Unforgettable

A Future in the Wild

In a poignant collaboration with the Sri Lanka Wildlife Conservation Society (SLWCS), CJS launched 'Unforgettable - A future in the Wild' in 2015, a significant campaign dedicated to the protection of wild elephants in Sri Lanka. The initiative involved a landmark walk with Brand Ambassador Jacqueline Fernandez through an elephant corridor, offering insights into the complex coexistence of humans and elephants. This understanding led to impactful initiatives, including the Ele-bus for children's transportation, the Orange Elephant project using citrus trees as humane deterrents. CJS also partnered with WNPS (Wild Life and Nature Protection Society) aiding them with their conservation projects funded by 100 percent of proceeds from two Limited Edition Elephant pendant sales. 'Unforgettable' serves as a lasting commitment by CJS to address the challenging Human-Elephant conflict in Sri Lanka, contributing significantly to conservation efforts.

Ocean Blues

In collaboration with Oceanswell and Dr. Asha de Vos

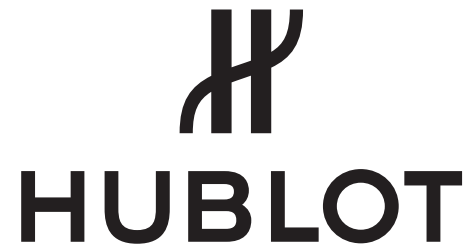

In 2018, CJS stepped into an inspired partnership with Dr. Asha de Vos and her marine research & conservation organization Oceanswell. The shared vision was for the strengthening of efforts to protect our seas' marine life and habitats, as well as raising awareness on the importance of their conservation. With the launch of three limited edition pendants, The Blue Whale, Dolphin and Sperm Whale and 100 percent of funds going towards marine conservation. Years and many collaborations later including the launch of two childrens books about marine life, we believe that together, we have been able to affect some degree of positive change. As our journey with Dr. Asha de Vos and Oceanswell continues, we can't help but be excited for the future and what impact we can make in it.
